## MIDSUMMER QUIET IS PAST; FALL TRADE OUTLOOK FINE.

Dun's Review Says Crop Prospects | Bradstreet's Says Failures Are Outweigh Adverse Effect of Labor Troubles.

New York, Aug. 8 -R. G. Dun & Co.'s weekly review of trade to-morrow will suy: Bright prospects in agricultural sections far outweigh the adverse influence of labor disputes. which are still retarding trade and manufacture Confidence in the future is unshaken, dealers everywhere preparing for a heavy fall trade, while contracts for distant deliveries run further

Into next year than is usual at this date.

Activity has been noteworthy in lumber regions and fish packing made new records. Railway earnings are fully sustained, the latest re-turns showing an average advance of 19 per cent over the corresponding time last year, and

Few, Liabilities Small and Prices Are Steady.

New York, Aug. 3.-Bradstreet's to-morrow will say:

trade, and, stimulated by really brilliant crop prospects and good prices for farm products, fall business has begun to expand. Buyers are arriving in large numbers at all markets, and next week promises to see demand

further increased. Manufacturing industry, which has been more than usually active this summer, continues well employed. Failures are few and liabilities small,

Prices are steady,
July railway earnings returns show 7 per cent
gain over last year. Bank clearings continue to
show gains over last year.
Advices from the boot and shoe trade are ir-

turns showing an average advance of 13 per cent over the corresponding time last year, and ill per cont over the corresponding time last year, and ill per cont over the corresponding time last year, and ill per cont over the corresponding time last year, and ill per contour the continues propitious. Coke ovens in the Connelleville region maintain as weekly output of about 250,000 tons and find ready buyers at full prices. Much more could be used to advantage. Conditions are indicated by the number of orders going out of the country, which domestic producers cannot undertake. Thus far the imports have bad little influence on domestic prices, except as to billets, which are freely offered below the home market that week overing deliveries in the second quarter of 1903, and structural material is desired for bridges and suructural material is desired for bridges and buildings that will not be received until even more remote dates. Machinery and hurdware trade is fully sustained, but there is idiness at timplate mills and glass factories. Minor metals are steady.

Dry goods buyed are coming into this market prices for any size, Cotton goods exporters are practically out of the market, prices in china being below the point where profit is possible. A few lines of cottons are fractionally lower and further declines are possible. Private advices do not indorse the official statement of a lower confidence of a profit is possible. A few lines of exportance in keeping with last week and sold up for the first half of law to the lack of speculative purchases. Ra

#### LESS BUILDING THIS YEAR.

Local Statistics Show Decrease of Twenty-One Per Cent.

In contradiction of statements made in many quarters that St. Louis is likely to do too much building on account of the approaching World's Fair, statistics compiled by the Construction News show that there has been a decrease of 21 per cent this year, as compared with last summer. July is

as compared with last summer. July is taken as a basis.

The local building in that month, 1901, aggregated in value \$1.498,283, while for July of this year the aggregate was \$1.178,-233. Other large cities show an increase. It will be remembered, however, that St. Louis led the country in building in 1901.

At the Building Trades Council, in the Odd Fellows' building, it was stated yesterday that the development this summer is not so great as was expected. Real estate agents are of the opinion that building is not keeping pace with the normal growth of the city. The proof is firmished in the fact that residences, flats, stores and offices are at a premium on the rent lists.

# GIRL IS MURDERED,

Young Man's Mother Also Missing. Mrs. Annie Bartholin, the mother of the ung man, disappeared from her home at No. 4310 Calumet avenue a month ago. Her son made no report of her disappearance to the police, and a man who had boarded with her for years reported the matter, saying that he was confident that she had met with foul play, for the reason that she had said nothing about going away, and had disappear on a washing day so suddenly as to leave the clothes in the tub.

appection a washing day so suddenly as to leave the clothes in the tub.

He thought she was lying dead in her room. Officers were at once sent to the house and forced the door of her apartment, but found no trace of her. Her son said that she had gone to Milwaukee, and as there was no reason at that time to thir, that she had been murdered, the matter was allowed to drop.

The day after the visit of the police to the residence of his mother, Bartholin called for the Mitchell girl, and they went away together. The letter written by Bartholin to Mr. Mitchell was posted in Chicago two days after his disappearance.

Bartholin is 28 years of age, and has been employed as a mechanic in a wagon shop at Auburn Park. He has not been seen by his employers for more than two weeks, and they have received no word from him. There is no known motive for the murder, but the wound in the back of the Mitchell girl's head is so situated as to render it out of the question that she could have infilicted it herself.

## PRETTY SUMMER GOWNS OF DELICATE MATERIALS

Dainty Box-Plaited Skirts Are Made of Dotted Silk Mull, White Grenadine, Silk Veiling, Batiste, Linen and Organdie-Dress Garments Are Cut in Seven Gores and Each Has a Pleat That Covers Seam.

made of dotted silk mull, of white silk grenadine, silk veiling, silk batiste, lines batiste and organdie. In these materials some very dainty box-pleated skirts are seen. These are cut in seven gores, each gore having a pleat that covers the seam. The front gore is narrow and plain, and a gathered graduated flounce is the finish. This is tucked at the hem or inset with two or three rows of lace insertion. Circular lounces cut in handkerchief points edged with lace are a noticeable Tenture of these thin gowns. The lower flounce has a straight edge with fine tucks and lace in-sertion at the hem. Thirteen, and even fifteen, gores form some of the skirts whose OLD WOMAN MISSING centers are arranged in groups of very fine tucks. The sores are joined with an open stitch. Two or three flounces edged with lace finish these. Wide, graduated flounces, sun-pleated and

W. H. Riley, a Prominent Farmer of Jackson County, Illinois, Shot at Miduight.

REPUBLIC SPECIAL

Murphysboro, Ill., Aug. 8.—W. H. Riley, a prominent farmer, who lived on the Solomon farm at the head of the island in Fountain Bluff Township of Jackson County, was murdered while in bed with his wife Thursday midnight. The murderer fired a load of shot into Riley's side, almost tearing it open, producing instant death. The murderer escaped in the darkness.

Mrs. Riley, who was avoused by the shot saw when me leaving the room, gun in hand, It was quite dark, but sho thinks she would know him if she should see him and leaving the room, gun in hand, It was quite dark, but sho thinks she would know him if she should see him and leaving the room, gun in the carry of the morther dark put she carry this morning and in company with State Attorney Venable started for the scene of the crime. Neither of them has returned. It is not known whether there have been a... arrests in connection with the case.

There is an element of mystery about the case. The general impression is that the murderer was in the house for the failing of the murder of lavender silk and the hat worn by her sister at the time of her disappearance to lavender silk and the hat worn by her sister at the time of her disappearance is both precipit and sensible. Miss Mitchell was last seen by the members of her failing on the might of July 30, when she left her father's house in company with State Attorney Venable started for the body of the young and the company with State Attorney and a company of the policy of the pull body of the young down the members have been a... arrests in connection with the case.

There is an element of mystery about the case. The general impression is that the murderer was in the house for the purpose of robbery, and awakened Mr. Riley; then, in order to find the shot It is and the house that night, and noting two products of the purpose of robbery, and awakened Mr. and the purpose of robbery of the purpose of robbery of the purp

are of slik or very fine transparent cloths, sometimes practically all lace or embroidery. They are lined with white or some bright-colored slik, the two-toned sliks being especially pretty for lining. Capes coming away below the walst, of allover black or cream lace over white or delicate tinted satins, are also worn.

Pretty new black and white sliks are elther striped or checks, some in so tiny a check that it scarcely can be seen. Stripes are very fine or wide. The black stripe is not very pronounced, having at a distance a grayish tint. These sliks will be used for separate waists, skirts and gowns, and may be worn until late in the fall. Black slik gowns will also be fashionable for fall, stitched with white or trimmed with some bright shade of yelvet.

HOW TO COOK RICE.

Water in Which It Is Bolled I sed in

A weman who lived in Persia for fifteen years is in despair because the rice which she buys in this country refuses to puff into the snowy mass that it so readily assumes on its native shores. She clings to the Persian method of preparing it. After putting it through several rinsings in cold water, to remove all the loose flour on the outside of the grains, the rice is placed in a large quantity of cold water and put over the fire. It is allowed to boil very hard, until it is swollen to its full size and begins to soften. Then it is turned into a colander and cold water is turned over it until it is

LONG COAT OF OPALINE CREPE.

dry. The last step is to put butter into the bottom of the kettle, turn in the rice and leave it until it is heated through, but not browned. In Persia the entire masswill respond to this treatment by swelling into a light, foamy consistency. When the rice is turned into a dish the butter goes with it, and permeates every kernel. In Persia no one thinks of throwing away the water in which rice is cooked. It is used in the preparation of tomaco sauce, in stewing prunes, apricots and other fruits and for various culinary purposes.

It Is of Pongee and Collars Come A coat for a child is made of pongee, with A coat for a child is made of pongee, with a double collar, shawl-shaped. The collars come down in long points, with a box plait running through the center, covering the opening in front and carried to the waist line. Each is finished with two rows of French knots in white. The large buttons, covered with pongee, are finished with needlework in white. There are a plain belt of the pongee, a narrow stitched choker, and rather deep cuffs into which the sleeves are gathered, also stitched. There is a button on each sleeve. A knot of chiffon finishes the coat at the throst.

WHITE TAFFETA EVENING COAT.

spread with a hard, unyielding mattress and without the vestige of a pillow under her head, but one under her feet. By this method she hopes to preserve the best fig-ure and most stately carriage in all Furgraph reports.

# rated With Them.

Since monograms have reached such prominence in decorations for the fair R is quite a favorite kien to have each a or namented with the owner's initials worked in sparkling jewels. The little salver sequins are very pretty for this purpose, and are almost as effective as coatier genus.

Plain lace or gaure fans may be bought at any of the shops, and, placed in the hands of an artist, are quickly transformed into genuine treasures.

Never before in the history of this fembine weapon has the Japanese fan been so popular as it is at present. Every running girl has sumplied herself with not one, but several, and she has two or three to match cach alty frock. The paper fan come in charming colors and exquisite designs, a that one has no difficulty in finding harmonicus ones.

SIMPLE BATISTE GOWNS.

Green Continues to Be Very Popular There are some exceelingly simple iste gowns made with everal gores, the gores outlined with feath retitation and up over a colored intwathe same shade, or over silk Pale blue with the national colored baliste is charming made in this style, as is also a bright shade of green. Green continues to be very much in demand, in spite of the fact that it has been so long popular. The one tone color, though, is really prettier than the other, and unless it is unbecoming, it is best to carry it out. If it is very unbecoming, then the blue at the throst or belt must needs be employed. A certain shade of bright yellow is smarter than blue, but not so becoming, and one shade of mauve, on a pinkish heliotrope, is also effective.

PATENT CANDLESTICK. Height of Blaze Regulated by This Silver Navelty.

Silver Novelty.

Patent candlesticks have the advantage of being practical and keeping the candle burning always at the same height, if they are not quite as attractive in general appearance when not in use. There is a tall silver piece extending above the candle-stick about the height of the candle. This is really a case for the candle, and beneath it is a strong spring. The candle is put inside the case, with only the wick appearing at the top. This is lighted, and as the candle burns down the spring below is constantly pressing up, and holds the cardle always in the same position, and there is no gradual lowering of the light, as is the case with the ordinary candlestick when the candle burns down.

ATTRACTIVE CHERRY HAT.

Rim Is Trimmed With Cream Lace choker, and rather deep cuffs into which the sleeves are gathered, also stitched. There is a button on each sleeve. A knot of chiffon finishes the coat at the throat.

FOR THE NERVOUS WOMAN.

How Rest May Be Secured in a Semi-rectining Pose.

For the nervous woman the rest cure can be taken in a semireclining pose in an easy chair, by relaxing every muscle. Sleep

### APPRISES NATIONS OF AWARD SYSTEM

President Francis Promulgates Plan as Indorsed by the National Commission.

RECOGNIZES LADY MANAGERS.

Superior, Department and Group Juries Will Be Organized to Pass on Merits of Exhibits.

The scheme of the international jury system and the government of award to exhibitors at the World's Fair, as indorred by the National Commission, were promulgated to all nations yesterday by President Francis.

A superior jury, department juries and suries of every group of art and industry on deplay at the Exposition, will form the elaborate organization which will decide the merits of contesting exhibitors from all paris of the world.

The Board of Lady Managers is recog sized in the general plan by having conferred upon them the authority to appoint a woman to membership on all juries which must pass on exhibits that have been produced in whole or in part by female labor. The board may also appoint an alternate in every case.

Jury, which is in reality the supreme court of the Exposition, will be the President of the Expesition Company, the First Vice President, the Director of Exhibits, the Sec-ond Vice President, a citizen of the United States to be named by the National Com-mission, the third and fourth vice presidents, the Commissioners General of the two foreign countries having the largest number of exhibitors, the chairman and the first vice chairman of the Department Juries, the chiefs of the Exhibit Departments and one person appointed by the Board of Lady Managers.

International Jary of Awards. The total number of jurors in the International Jury of Awards will be 2 per cent of the total number of exhibitors. Each na-tion having fifty exhibitors or more is entitled to representation on the jury. The group juries will be composed of jurors and alternates, and the number of the alternates has been confined to one-fourth of the num-ber of jurors.

United States jurors and alternates will

be nominated by the chlefs of departments to which the respective groups belong. In the case of foreign countries and United States insular possessions, these persons must be commutated by the commissioners of such countries. These nominations must be made at least thirty days before the opening of the Exposition.

of the Exposition.

Each group jury will be entitled to choose a chairman a vice chairman and a secretary. Of the first two officials, one must be a citizen of the United States and the other from a foreign country that is represented by exhibits. The chief of each Exposition department has general charge of the organization and direction of the group juries in his department, and he will be admitted to all of the sessions. The work of these juries will begin thirty days after the opening of the Fair, and is to be completed thirty days later. Work not completed by them will be transferred to the department juries.

Authority Given to Appoint.

Authority Given to Appoint.

Authority is conferred on the group juries to appoint, with the aproval of the Director of Exhibits, such associates or experts, skilled in matters submitted to the juries, who will give technical assistance, but shall have no vote on the question of the exhibit's merit. Findings of these bodies will be certified to the chiefs of departments, who in turn will bring these findings before the department juries within ten days. To expedite the work, two or more of the group juries may be combined. In the case of temporary exhibitions or exhibits which are developed through a considerable period of time, the juries of the group system are authorized to continue in service throughout the entire period of the Exposition. Special juries may also be formed when needed. Special awards for temporary exhibits or competitions will be provided by the chief of the department to which the exhibit belongs, with the approval of the Director of Exhibits and the President. Authority Given to Appoint.

proval of the Director of Exhibits and the President.

Department juries will be composed of the chairman and vice chairman of the group juries, with one member of the directory of the Exposition Company, to be named by the President, and one person appointed by the Board of Lady Manngers. The officers of these juries will be a chairman, three vice chairmen and a secretary. The chairman and vice chairmen must be citizens of the United States. The secretary may be selected at large by the members of the jury from a list of persons recommended by the Director of Exhibits. Each department jury must begin its work seventy days after the opening of the Exposition.

Duties of Officials Defined. The duties of these juries will be to re-view the reports of the group juries, to harmonize differences that may exist be-tween the recommendations of the several group juries as to awards and to adjust group juries as to awards and to adjust all awards recommended, so that they will be consisted with the rules. Thenry days may be devoted to this work. The findings will be abounted through the chiefs of the various departments to the Director of Exhibits, who within ten days will bring them to the attention of the Superior Jury, including any work that my inare been left incomplete by the department furies.

As the court of last resort, the Superior Jury will determine finally and fully the awards to exhibitors. Formal notice of the award will be sent by the president of the jury to the exhibitors. If the reward is not satisfactory the exhibitor may file written notice with the president of the jury willing three days after receiving the notice, henrings of manbers of the department juries and exhibitors will be accorded by the Superior Jury in adjusting differences. the Superior Jury in adjusting differences. The work of this jury must be completed on or before 12 days after the opening of the Experimen. A committee, consisting of the resident and the four size presidents of the Superior Jury, will continue its work s long as necessary after the disbandment of the deliberations of all juries will be se-

The deliberations of all juries will be secret, although the President of the Exposition Company, the Director of Exhibits and the chi is of departments shall have the priviles of a gending sixtens.

The exhibits of persons occupying the position of inversion alternates will be clarged as noncompetitive and will not be examined by the juries. This rule also applies to nonnegary, agents or others representing a company or corporation entered as an exhibitor but does not apply to officers or representatives of Governments entered as exhibitors. Only one award will be given to a collective exhibit, but the names of all the contributors to this exhibit will be entered on the award diploma.

System Adopted to Judge Exhibits.

Whenever it is applicable a decimal scale system will be used in judging the merits of exhibits. 190 representing perfection. Suggestions to the juries along these lines is offered in the rules. It includes: Value of the oroduct, process machine or device, as measured by its usefulness, its beneficial influence on mankind in its physical, mental, moral and educational aspects. Skill and ingenuity displayed in the in

pects.

Skill and ingenuity displayed in the invention, construction and application; merits of the installation as to the ingenuity and taste displayed, the cost and value as an Exposition attraction; magnitude of the business represented, as measured by the gross sales during the calendar year preceding the opening of the Exposition.

Quality or cheapness, with reference to the possession by the exhibit of the highest possible quality, or the fact that the article is sold at so low a price with reference to its quality as to make it a valuable acquisition to the purchaser; for the completion of installation within required time and for excellence of maintenance, length of time the exhibit has been in business as showing whether exhibit is a development of original invention or is an improvement on the work of some prior inventor, number and character of awards received from former expositions.

Medals May Be Recommended.

A special award of a gold medal, in each

Medals May Be Recommended.

A special award of a gold medal. in each department, may be recommended by the Department Jury for the best, most complete and most attractive installation.

The scale of markings to be used in determining the final merits of an exhibit and fixing the award, 190 being used to denote perfection, gives a bronze medal to an exhibit ranging from 60 to 74, inclusive; a silver medal, markings from 75 to 84; a gold medal from 85 to 94, and a grand prize from 36 to 100, Special commemorative med-

# STILL FURTHER PROOF

Where Doctor's Fail to Cure Woman's Ills, Lydia E. Pinkham's Vegetable Compound Succeeds.

Mrs. Pauline Judson, Secretary Schermerhorn Golf Club, Brooklyn, N. Y., Writes On This Subject.

A woman best understands a woman's ills.

How true this is, and how well proven in Mrs. Judson's letter which

How many thousands of letters Mrs. Pinkham is constantly receiving from women recounting their months, and sometimes years of treatment by physicians for some derangement of the female organs without obtaining a cure, or even relief from their suffering, and how eventually they have been cured by her advice or medicine, or both, is almost beyond belief.

Just think how Mrs. Judson was treated for months without success, and how quickly she was cured by Lydin E. Pinkham's Vegetable Compound and Sanative Wash.

Is there a sick woman on earth who will doubt the power of Lydia E. Pinkham's Vegetable Compound over womens' diseases in the face of

Any woman who is troubled with any form of female ills, painful menstruction, backache, dizziness, bearing down feelings, ovarian inflammation or any womb trouble should hasten to procure Lydia E. Pinkham's Vegetable Compound, for no other medicine is so universally recommended by prominent women of all classes.

MRS. PAULINE JUDSON.

"Dear Mrs. Pinkham: - Soon after my marriage two years ago I found myself in constant pain. The doctor said my womb was turned, and this caused the pain, with considerable inflammation. He prescribed for me for four months, when my husband became impatient because I grew worse instead of better, and in speaking to the druggist he advised him to get Lydia E. Pinkham's Vegetable Compound and Sanative Wash. How I wish I had taken that at first; it would have saved me weeks of suffering. It took three long months to restore me, but it is a happy relief, and we are both most grateful to you. Your Compound has brought joy to our home and health to me."—Mrs. PAULING Jupson, 47 Hoyt St., Brooklyn, N. Y.

It would seem by this statement that women would save time and much sickness if they would get Lydia E. Pinkham's Vegetable Compound at once. It might as well be understood first as last that no medicine in the world is equal to it, and no druggists' substitute will be satisfactory. Get it to-day; don't wait.

\$5000 REWARD.—We have deposited with the National City Bank of Lyan, \$8000, which will be paid to any person who can find that the above testimonial letter is not genuine, or was published before obtaining the writer's special permission.

Lydia E. Pinkham Medicine Co., Lyan, Mass.

This List Appears Byery Saturday.

als and diplomas will be issued to the officers of the Exposition, to United States,
State and foreign Commissioners, to members of the international Jury of Awards
and to other persons who may be deemed
worthy of special recognition.

Compensation of foreign jurors will be
fixed and paid by the countries which they
represent. United States jurors, except such
as are officers and employes of the Exposition, will receive the actual cost of transportation and compensation at the rate of
\$\tilde{x}\$ a day for time in which they are actually
engaged in the work assigned them at the
Exposition. Hotels and Resorts.

REBEKAHS WILL RAISE FUNDS. Work for World's Fair Fraterna Building to Be Pushed.

Mrs. Euroice Melville, chairman of the Ways and Means Committee for the Rebekahs in the World's Fair Fraternal Building Association movement, has notified Secretary Hatfield of the association that she ing Association movement, has notified Secretary Hatfield of the association that she has made appointments to collect funds from members of that order for the erection of the Temple of Fraternity.

be lost in preparing models and arranging plans. The board took no action.

It is proposed that each department of the city shall take care of its own showing. Models of the waterworks, sewers, streets, methods of street construction, the Fire and Police departments, the hospital, Health Department, including an exhibit of its chemical and bacteriological departments and methods of fumiliation, have been suggested as interesting subjects for display.

Textiles Will Be Roofed in Month.

Contractor J. J. Dunavent, the head of
the firm that is building the Textiles Palace, estimates that one-quarter of the
structure is now under cover and that in
a month the roof will be over the entire
palace. The work is being done at the
rate of two sections of roof spans a day.
Jamediately on the completion of the trust
work a force of roofers will follow the
sheeting of the roof. It is expected that
the walls will be treated with staff in the
next two weeks. The entire western and
northern walls and five of the eight pavilions are completed, sheathed and ready
for the application of staff. About onehalf of the court walls are also finished. Textiles Will Be Roofed in Month.

Atlantic Coast Resorts Are comfortably reached from St. Louis by the efficient through service of the Vandalia-Pennsylvania Lines. Ticket offices, Seventh and Olive streets and Union Station.

POLICE SEARCH FOR WALDRON. Two Carriage Factory Employes

Say He Shot Them. The police were asked yesterday to arrest William Waldron, a blacksmith's helper of No. 2609 Sheridan avenue, who is charged with shooting two men in the St. Louis Carriage and Wagon Company's factory at No. Sewer Commissioner Hermann Introduces Subject in Board Meeting.

A municipal display at the World's Fair will be made by St. Louis in competition with other cities in the country which are preparing to be represented at the international show.

Sewer Commissioner E. A. Hermann introduced the matter to the attention of the Board of Public Improvements at its meeting yesterday. He said that no time was to
